

**New Version of IPEmotion Available!**

IPETRONIK just released the latest IPEmotion version V01.04.01 which now supports Asian languages such as Korean and Chinese. Chinese is available in "traditional" and "simplified". You only need a few mouse clicks to change the language displayed in IPEmotion. This way your partners in Far East can use IPEmotion in a very convenient way as well.

For more information on IPEmotion please see below.

Best Regards from Baden-Baden, Germany

Your IPEmotion Team

**Support of new Hardware and PlugIns**

**Hardware-PlugIn EASYbus for Greisinger devices**

IPEmotion version 01.04.00 or higher supports the following modules:

- + all devices of the EASYBus series,
- + portable measuring instruments of GMH 3000 series (using the USB 3100 interface adapter).

**Hardware-PlugIn for Klariic sensor devices**

IPEmotion version 01.04.00 or higher supports the following modules:

- + Klari-Mod-SC (current or voltage, depending on the probe),
- + Klari-Mod-MC2 (2 channel, current and/or voltage depending on the probe),
- + Klari-Fuse (8 channel device for standby and operation currents).

**CANbus hardware IM +E Actia and Drewtech (Mongoose)**

IPEmotion now supports two more manufacturers of CANbus interfaces (IM +E Actia and Drewtech (Mongoose)). Both components are connected through the PC's USB port with IPEmotion.

**IPEmotion PlugIns Beckhoff, Siemens, Wago**

We released the hardware PlugIns for Beckhoff, Siemens and Wago. They are now available on the IPEmotion website as free download. With these PlugIns IPEmotion enters the field of industrial measurements and automation applications as well.

The communication with Siemens (all types of channels from the Siemens PLC S7) is supported through the networks Profibus, Ethernet, Profinet and MPI. The Beckhoff PlugIn and the Wago PlugIn are supporting the terminal connectors of the KL series respectively the 750 series through TCP/IP (Modbus) and Profibus.

You can test the full range of IPEmotion for 30 days free of charge downloading the **>> IPEmotion's demo version <<** .

**Events - InnoTrans 2010**

Visit us at the InnoTrans, 21st - 24th of September 2010 in Berlin, Germany!
